

TorontoPubs' East Danforth Pub Crawl

Notes on this pub crawl: the walk (1 km) takes about 12 minutes in total taking into account traffic signals. Keep in mind that all five pubs are small and you might have difficulty getting a seat. Local 1794 is a little farther east than the other four pubs, but worth the walk.

Notes on pub crawls in general: consider at least 45 minutes per pub visit and let your server know that you having just one drink and then moving on into the fizzy night so she/he knows that you'll need your bill quickly. Pay by cash so you aren't waiting for the credit card/debit machine and tip generously as you may be back one day for longer than just one drink. Check the pub's website/Twitter in case they have an event that night. Also keep in mind the day and time, Saturday nights with the FIFA World Cup's final on is not the best night for said pub crawl.
